ABOUT US

Royal Kings is the seamless intersection of high quality products, great value and convenience. We strive for Royal Kings to be a streamlined platform for business owners to focus on their core services and not waste time sourcing supplies or worrying about quality.

Your business deserves the best supplies, and at Royal Kings, you're going to get it. Partnering with SKP, we supply only the highest quality packaging, trusted since 1991. Having our products tried, tested and trusted worldwide and recognised with four awards in Singapore, we now bring the same quality and service assurance to Australia through Royal Kings.

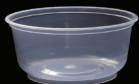

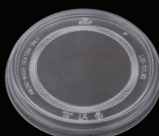

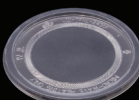

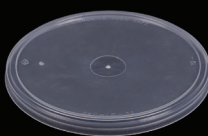

Acknowledgments include a Service Excellence Award in 2012, Singapore's Prestige Brand Award in 2014 and Singapore's Heartland Enterprise Awards for Most Innovative and Best Visual Merchandising in 2014.

Our extensive range of premium plastic hospitality packaging products are created using 100% reusable, recyclable and microwave safe #5-PP (polypropylene), one of the safest heat resistant plastics for food and beverage use. Selected items are also available in paper materials.

We put your convenience first and are constantly improving our processes to make Royal Kings Co your one stop shop for hospitality supplies. Got suggestions? Send us an email at hello@royalkings.net.au for us to consider!

We take care of supplies. You take care of your business.
